

Anti-Seize

Prevents seizing, fretting, pitting, galling and corrosion on all types of metal parts at temperatures between -200° F and 2000° F. Protects against corrosion between dissimilar metals. Resists water, salt solution, most shop and automotive fluids. Meets MIL-907 specifications.

- 8 oz. Brush Top Can **49558** \$7.52
- 16 oz. Brush Top Can **49560** \$13.02
- 8 oz. Brush Top Bottle
Contains copper **49582** \$10.64

Wheel Bearing Grease

A premium state-of-the-art lithium complex grease, this multipurpose lubricant has a high dropping point in excess of 500° F, which ensures retention where high temperatures are encountered. An excellent bearing lubricant for car truck trailers, sports vehicles and plant equipment. Particularly recommended for disc brake equipped vehicles. Excellent water resistor and rust inhibitor. NLGI No. 2

- 1 lb. Can **54016** \$4.32

White Lithium Grease

General-purpose lubricant. Protects against rust and corrosion. Minimizes friction. Reduces wear to equipment. Increases service life. Can be used on door, hood and trunk latches, hinges and compartment springs, seat regulators and tracks, wiper mechanisms, brake parts and distributor cams. Manufactured to meet USDA specifications.

- 16 oz. Tub **49595** \$5.28
- 12 oz. Aerosol Can **49596** \$6.74

E-6000 Adhesive

Virtually replaces every other adhesive and sealant that you use

- Exceptional flexibility
- Highly abrasion resistant
- Exceptional adhesive strength
- High tensile (cohesive) strength
- Maintains adhesive & sealant properties under water

Flexibility and Vibration Resistance. This material has tremendous elasticity, with a capacity to stretch to 600% of its length. This elasticity factor permits E-6000 to operate as an effective adhesive between surfaces that have dissimilar expansion coefficients or as a sealant between components which will exhibit large changes in spacing during use. Industrial Grade E-6000 was rated #1 in 207 of 208 comparative test pairs.
